

vulnerable bodies gender the pdf

International cooperation sets gender equality as one of the priority areas to improve living conditions of women and children around the world.

Justice and fundamental rights | European Commission

Gender is the range of characteristics pertaining to, and differentiating between, masculinity and femininity. Depending on the context, these characteristics may include biological sex (i.e., the state of being male, female, or an intersex variation), sex-based social structures (i.e., gender roles), or gender identity.

Excessive Alcohol Use and Risks to Women's Health. Although men are more likely to drink alcohol and drink in larger amounts, gender differences in body structure and chemistry cause women to absorb more alcohol, and take longer to break it down and remove it from their bodies (i.e., to metabolize it).
